Boutique Mast

Boutique Mast, leggera e aerea, con struttura ottone brunito e vani a giorno in essenza eucalipto.

Light and aerial, Boutique Mast features an burnished brass structure and eucalyptus open modules.

Boutique Mast, leggera e aerea, con struttura iron e vani a giorno in essenza pale moon con interni carta da zucchero. Elegante gabbia grafica caratterizzata da montanti metallici circolari a sezione ridotta su cui è possibile applicare specchieri e grandi mensole a sbalzo ad "ala di aliante", è una soluzione ad alto impatto estetico che nella zona notte diventa minimale cabina armadio e nella zona giorno contenitore aperto, piano scrittoio e capiente libreria.

Light and aerial, Boutique Mast features an iron structure and pale moon open modules with carta da zucchero interiors. It is an elegant graphical cage characterized by thin circular metal uprights where to fit mirrors and large cantilevered "glider-wing" shelves - a strongly visual solution that, in the bedroom, becomes a minimal walk-in closet and, in the living area, an open container with a desk and a spacious bookcase.

Vero e proprio cuore della casa, l'ampia Dressing Room Storage alterna vani completamente trasparenti, aperti o racchiusi da ante in cristallo, con vani chiusi da fondali in ciliegio white, melaminico che riproduce la venatura del ciliegio stemperandone la colorazione rosacea con toni più neutri e passe-partout.

Per la struttura e le parti in metallo è scelta la finitura cuvée, colore ricercato e prezioso che contribuisce ad alleggerire esteticamente la composizione.

As the real heart of the house, the spacious Storage Dressing Room mixes and matches completely transparent spaces, open or closed by glass doors, with units closed by cherrywood white back panels, a melamine finish that reproduces the grain of cherrywood but softens its rosy colour with more neutral and universal tones. The structure and the metal parts feature the cuvée finish, a refined and precious colour that contributes to making the composition look lighter.

All'insegna della massima sperimentazione, il grande angolo trasparente in cristallo con struttura metallica nella finitura cuvée, realizzabile con schienale in cristallo oppure con fianchi interni in cristallo e schienale in melaminico ciliegio white.

A destra dettaglio della luce led integrata nel ripiano per un'illuminazione più omogenea a diffusa.

As the expression of maximum experimentation, the large clear glass corner with a metallic frame in cuvée finish can be designed with a glass back panel or with internal glass side panels and the back panel in ciliegio white melamine finish.

On the right, a detailed view of the led light embedded in the shelf, for a more uniform and diffused lighting solution.

Un interno dal gusto sofisticato, dove tonalità soft, ottenute intrecciando filati grigio e turchese, si mixano con un legno scuro riccamente venato: Storage punta sull'abbigliamento tra attrezzi in melaminico eucalipto e pannelli a muro modulari rivestiti in tessuto azzurro. I ripiani in legno si alternano ai ripiani rivestiti in ecopelle, per appoggiare i capi più preziosi sfiorandoli con delicatezza.

An interior with a sophisticated flavour, where soft tones, obtained by interlacing turquoise and grey yarns, match the warmth of a richly grained wood: the Storage dressing room is characterized by fittings in the eucalyptus melamine finish combined with the modular wall panels covered in light blue fabric. The wooden shelves alternate with the eco-leather covered shelves, on which to place the most precious pieces, caressing them delicately.

Il sistema Storage permette di creare infinite soluzioni mixando strutture a vista ed elementi chiusi. La soluzione ad angolo permette un utilizzo ottimale dello spazio. Moduli a giorno in mongoi, ante Iron in cristallo trasparente. The Storage system offers endless possibilities by combining open and closed modules. The completely accessible corner solution allows for the most efficient layouts and use of space. Open sections shown here in mongoi finish with transparent Iron framed doors.

Storage - Dressing Room

30

Le personalizzazioni interne e gli accessori rendono il dressing room pratico e ordinato. A destra ripiani inclinati luminosi porta scarpe. Sulla sinistra dettaglio del ripiano in cristallo inserito nel profilo in legno per lasciare intravvedere il contenuto. Internal customized fittings and accessories make the dressing room practical and tidy. On the right, the inclining lighting shelves for shoes; on the left, a detail of the glass shelf enclosed by a wooden profile, only partially hiding its content.

Storage - Dressing Room

36

Vera e propria stanza dedicata ai vestiti, il dressing di Storage viene declinato in una composizione angolare in mongoi che alterna moduli a giorno con vani chiusi da ante Iron.

A space dedicated to fashion. The Storage dressing room solution is designed as a corner composition presented in the mongoi finish, alternating open and closed modules with Iron doors.

La Boiserie Storage, superficie continua senza nessun tipo di interruzione frontale, si abbina perfettamente ai moduli a giorno. Entrambi puntano sull'abbinamento tra attrezzature in melaminico eucalipto e pannelli a muro modulati in tessuto azzurro. I ripiani in legno si alternano ai ripiani rivestiti in ecopelle, per appoggiare i capi più preziosi sfiorandoli con delicatezza. Al centro la cassetiera Hub. The Storage Boiserie, a seamless surface with no frontal interruption, perfectly matches the Storage open modules. Both are characterized by fittings in the eucalyptus melamine finish combined with the modular wall panels in light blue fabric. The wooden shelves alternate the eco-leather covered shelves, on which to place the most precious pieces, caressing them delicately. In the centre the Hub drawer unit.

Una composizione di moduli a giorno Storage crea un interno dal gusto sofisticato dove le tonalità soft dei fondali e dei ripiani rivestiti in morbida ecopelle si mixano con i toni scuri delle attrezzature in eucalipto. I ripiani trasparenti in cristallo illuminano in modo scenografico gli abiti e gli oggetti custoditi in questa raffinata cabina armadio.

A Storage open-module composition creates a sophisticated interior design where the soft tones of the eco-leather covered back panels and shelves blend with the darker tones of the eucalyptus accessories.

The clear glass shelves illuminate in a powerful way the clothes and objects stored inside this refined walk-in closet.

La cassetiera centrale Hub è attrezzabile scegliendo la propria sequenza preferita tra cassetti in essenza, laccati o in vetro trasparenti, in composizioni monofacciali o bifacciali. Si possono inserire parti-zioni espositive, vassoi in ecopelle, fino ad una comoda panca rivestita in cuoio con cassetto, pensata per l'attesa durante la prova d'abito.

Hub central drawer unit can be equipped by choosing one's own preferred order from among wooden drawers, lacquered or transparent drawers, to obtain single or double-faced composition. It's possible to insert display cases, shelves with eco-leather trays, and finally a comfortable saddle leather covered bench with drawer, conceived for the waiting time while trying on a suit.

La famiglia Hub include isole bifacciali in cui le cassetti sono abbinate a moduli a giorno portacamice e portaborse, vassoi e comode panche in cuoio per creare soluzioni in grado di contenere, esporre ed accogliere, ideali per il dressing room. L'ampia gamma di finiture garantisce la personalizzazione del prodotto, che qui alterna su un lato cassetti in vetro e in essenza pale moon, sull'altro la soluzione panca in cuoio corda con cassetto.

The Hub family encompasses double-face central units, where drawers are combined with open shirt and bag holding modules, leather trays and comfortable leather benches to create ideal storage, displaying and holding solutions for the dressing room. The wide range of finishes allows for a customization of the product, that here alternates glass and pale moon drawers on one side and a corda leather bench solution with a large drawer on the other.

Nel dressing è possibile combinare soluzioni a giorno con armadi chiusi da ante per creare spazi funzionali e di grande impatto. L'armadio monta ante battenti e maniglie Linea; i moduli a giorno ad angolo sono in mongoi.

It is possible to mix open solutions with closed wardrobe modules to create functional and beautiful spaces. The wardrobe has hinged doors and Linea handles; open modules are in mongoi finish.

Storage - Dressing Room

58

La Cassettiera Isola offre una pratica soluzione contenitiva da posizionare nel dressing. Cassetti in legno e cristallo si alternano a vassoi estraibili creando elementi ideali per contenere ed esporre in perfetto ordine. The Isola Chest of drawers offers a practical holding solution to be positioned in the wardrobe. Wood and glass drawers matched with removable trays thus offering ideal units to hold and exhibit in perfect order.

Partizione porta oggetti per cassetti, finemente ripartita tra vani porta occhiali, porta bracciali, porta orologi, porta gemelli, porta collane, porta bracciali rigidi, porta orecchini e porta anelli, per un ordine impeccabile e meticoloso che separando valorizza. Disponibile in ecopelle con fondo in tessuto.

Partitioned holder tray for drawers. Finely divided into compartments for glasses, bracelets, watches, cufflinks, necklaces, as well as rigid bracelet, earring and ring holders, providing impeccable and meticulous order that enhances by separating them. Available in eco-leather with fabric bottom.

Ideale per la casa così come per i negozi più eleganti, Acquario è la cassetiera centro-stanza in cristallo trasparente con profili in ottone brunito, suddivisa in 3 ripiani e attrezzata con vaschette in legno che lasciano a vista il contenuto, per riporlo in perfetto ordine ed estrarre con facilità. Ideal for the home as well as for the most elegant shops, Acquario is the central drawer unit, perfect in the middle of a room, made in transparent glass with burnished brass profiles; it is divided into 3 shelves and is equipped with wooden trays in order to leave the contents visible, store them in perfect order and then extract them with ease.

Grandi porte scorrevoli Shift racchiudono la Boiserie Storage, soluzione spaziale completamente personalizzabile composta da pannelli a muro modulari su cui appendere con inedita libertà varie attrezziature. La luce integrata che esalta la trasparenza dei ripiani e impreziosisce i cassetti con top in vetro, il mensolone che si inserisce da una parete all'altra creando una superficie d'appoggio continuo dando respiro architettonico, non dimenticano la cura di ogni più piccolo particolare.

Large Shift sliding doors enclose the Storage Boiserie, a fully customizable space solution composed of modular wall panels that can be equipped with the utmost freedom. The built-in light that enhances the transparency of the shelves and embellishes the drawers with glass tops, and the big shelf that goes from one wall to the other - thus creating a continuous top with great architectural impact, highlight the care for every single detail.

Storage Boiserie presenta schienali rivestiti in tessuto di lino écrù, che creano un fondale neutro per le attrezzature in eucalipto: dai cassetti con top continuo in vetro, ai ripiani inclinati portascarpe, alla cassetiera free-standing, fino ai ripiani luminosi e al mensolone in essenza. Storage Boiserie features back panels with écrù linen upholstery, that create a neutral backdrop for the eucalyptus equipment: from the drawers featuring a continuous glass top, to slanted shoe racks, a free-standing drawer unit as well as lighted shelves and the big wooden shelf.

Un interno dal gusto sofisticato, dove tonalità soft, ottenute intrecciando filati grigio e turchese, si mixano con un legno scuro riccamente venato: la Boiserie Storage, superficie continua senza nessun tipo di interruzione frontale, punta sull'abbbinamento tra attrezzature in melamminico eucalipto e i pannelli a muro modulari in tessuto azzurro.

An interior with a sophisticated flavour, where soft tones, obtained by interlacing turquoise and grey yarns, match the warmth of a richly grained wood: the Storage Boiserie, a seamless surface with no frontal interruption, is characterized by fittings in the eucalyptus melamine finish combined with the new modular wall panels in light blue fabric.

Conquista la matericità della Boiserie Storage, una soluzione a metà strada tra la tipologia della cabina armadio e quella dell'armadio, composta da pannelli a muro modulari, disponibili nelle essenze, nei melaminici Porro e in tessuto. Sono invece nei melaminici o in laccato opaco nei colori della collezione le attrezature pensili.

Full of fascination the Storage Boiserie, a half-way solution between the walk-in closet and the open wardrobe, composed by modular wall panels in all the Porro essences, in the melamines and fabric. The hanging fittings are available in melamine finishes or in the matt lacquered colours of the collection.

in mongoi, finitura lignea
emozionale dall'effetto
baule.

Linear and elegant, the
Scoop door in white
back-painted glass conceals
mongoi interiors, an
emotional wooden finish with
a trunk effect.

Storage Battente disegna lo spazio in un susseguirsi di superfici in vetro retroverniato bianco, con maniglia Boite-Aux incassata nell'anta.

Storage with hinged doors designs the space in a succession of white back-painted glass surfaces, with Boite-Aux handle embedded in the door.

Composizione battente con interni in hemlock cenere e ante Riff in laccato opaco avorio. Un segno architettonico, un motivo verticale pulito che lascia la superficie lineare donandole movimento.

Hinged door wardrobe with cenere hemlock interiors and avorio colored, matt lacquered Riff doors. An architectural detail creates a clean linear pattern while eliminating the need for an exposed handle.

Attrezzature interne nella elegante finitura hemlock cenere. Cassettiere, appenderie, ripiani estraibili e porta biancheria organizzano e dividono lo spazio razionalmente. Internal equipment shown in the elegant cenero hemlock finish. Drawer units, clothes rods, extractable shelves, and laundry drawers are some of the many options available to organize the interiors.

L'armadio Storage Battente con ante Riff priva di maniglia esalta la continuità della superficie in eucalipto, creando un fondale materico nella camera da letto.

The Storage hinged wardrobe with Riff doors without handle, enhances the continuity of the eucalyptus surface, creating a materic backdrop in the bedroom.

providing a nice light
perception to enhance
the objects inside.

L'armadio Storage Battente con ante 32s in rovere termotrattato mostra la maniglia Oslo interamente realizzata in legno con un accurato lavoro di ebanisteria, all'insegna della pulizia visiva. Tra i suoi moduli si inserisce una nicchia vanity rivestita in tessuto écrù per dedicarsi alla cura di sé, con mensole Load-it in ottone brunito, pannello a specchio e piano sospeso Modern in essenza. The Storage Battente wardrobe with 32s doors in heat-treated oak features the Oslo handle, entirely made of wood with an accurate cabinet workmanship that provides for a very neat look. Among its modules is a vanity niche upholstered with an écrù fabric, to be used for personal care, with Load-it shelves in burnished brass, a mirror wall panel and a Modern suspended wooden top.

L'armadio Storage si veste delle ante battenti in eucalipto 32S a forte spessore, caratterizzate dalle preziose cerniere a cardine che permettono un'apertura a 180° garantendo il massimo comfort nell'accesso all'ampio modulo da 150 cm. La maniglia a filo in ottone brunito Clip, dall'esecuzione impeccabile, porta con sé le suggestioni tipiche dei materiali della tradizione. A Storage wardrobe using the 32S hinged doors in eucalyptus. These doors are characterized by substantial thickness and a unique hinge, which enables the doors to open 180°. This allows for complete access to a module up to 150 cm wide. The Clip integrated handle in burnished brass is impeccably executed and references more traditional materials.

Gli interni in hemlock cenere si accendono per gli inserti in tessuto rosso, ottenuto intrecciando filati rubino e violetto, per chi ama osare con gli accostamenti e ricerca arredi dalla personalità spiccatamente spicciata. Tra i suoi moduli, anche un classico come la libreria Load-it è rivestita in tessuto, per ospitare gli oggetti più preziosi.

The cenere hemlock interiors are enlivened by the red fabric inserts, obtained by interlacing ruby and violet yarns, for those who love daring combinations and search for furniture with strong personality. Among its modules, a classic as Load-it bookcase shows panels covered with fabric to place the most precious pieces.

L'armadio Storage Battente indossa ante 32S a forte spessore in laccato color tortora, con la nuova maniglia Glove rivestita in ecopelle, che racconta l'attenzione meticolosa di Porro per ogni più piccolo dettaglio. Gli interni in melaminico nero black sugi sono abbinati ad un fondale in tessuto grigio che richiama la colorazione sobria delle ante. Il suo passo è interrotto da una nicchia in cui la libreria Load-it con piani in ottone è interamente rivestita in tessuto grigio, ospitando un piano Modern in mongoi per appoggiare la televisione.

The hinged Storage wardrobe features extra-thick 32s tortora lacquered doors, with the new eco-leather Glove handle that epitomizes Porro's utmost care for every finest detail. Black sugi melamine interiors are combined with a grey textile back panel that matches the understated colour of the doors. Its pace is interrupted by a niche where the Load-it bookcase with brass book shelves is entirely covered with a grey fabric and features a Modern mongoi shelf where to put a TV set.

Un fascino senza tempo contraddistingue l'armadio Storage battente con ante rivestite in cuoio color foca rese uniche dalle preziose cuciture e maniglie ad incasso Boite Aux. Interrompe il loro ritmo regolare una nicchia Load-it con mensole e pannelli a muro in ottone brunito. Timeless fascination characterizes the hinged Storage wardrobe with foca saddle leather doors, that become unique thanks to the sophisticated stitching and the Boite Aux handles. Their regular pace is interrupted by a Load-it niche with burnished brass shelves and wall-mounted panels.

Materiali tradizionali utilizzati in modo inedito acquisiscono un appeal contemporaneo: le ante rivestite in cuoio color corda proteggono interni scuri in melaminico black sugi. Superficci preziose, che definiscono l'identità di uno spazio all'insegna del rigore e insieme della morbidezza.

Traditional materials used in a new way with a contemporary appeal: the doors covered in corda saddle leather protect dark interiors in black sugi melamine. Precious surfaces, which define the identity of a space characterized by rigor and, at the same time, softness.

Storage battente racchiuso da ante Block in cristallo con profilo in metallo. Un telaio leggero e discreto disponibile in finitura iron o in ottone brunito, che, accoppiato con cristallo trasparente, smoke o reflex, crea una superficie lineare e continua. Tra i moduli di Storage viene ricavato un vano scrittoio Modern + Load-it con mensole in acciaio, pannelli in specchio e rovere termo-trattato così come il piano sospeso Modern: una nicchia vanity per dedicarsi al proprio make-up.

Hinged door Storage wardrobe enclosed by the Block doors with metal frame. A light and discreet framed door available in iron or burnished brass finishing, creates a linear and uninterrupted surface, paired with transparent, smoke, or reflex glass. Between its modules, a custom Modern + Load-it desk/vanity is created by matching steel shelves, heat treated oak and mirrored wall panels and a suspended wooden top.

Un armadio battente impreziosito da ante Iron in cristallo trasparente, una teca che lascia a vista gli interni in black sugi, l'appenderia, i ripiani in legno e le cassettiere sospese. Le ante Iron sono disponibili con profilo in metallo finitura iron, ottone brunito o bianco, in abbinamento al vetro trasparente, smoke o reflex. Iron framed doors in transparent glass showcase black sugi interiors, hanging rods, wooden shelves and suspended drawer units. The Iron doors are available in iron, in burnished brass, or in white lacquered finishing. Transparent, smoked, or reflex glass are available as standard options.

Una dressing room creata su misura alterna varie soluzioni chiuse o aperte. Tra esse l'armadio Storage Battente con ante Iron in finitura ottone brunito: una cornice in metallo visivamente importante che lascia una spettacolare vista degli interni.

A custom-made dressing room alternates closed and open solutions. Among them, the Storage hinged wardrobe with Iron doors in burnished brass finish: a visually important metal frame that leaves a spectacular view of the interior.

Nella pagina precedente una composizione Storage con ante scorrevoli Light in cristallo retro verniciato bianco moon. Sulla sinistra divisorì interni in melamminico hemlock cenere, sulla destra interni in HDS bianco: dettaglio della cassetiera sospesa e dei vassoi porta camicie.

slowing-down closing device.

Proporzione fra piani orizzontali e verticali, cura dei dettagli tecnici, eleganza compositiva enfatizzano l'appeal della cabina Storage. Le ricche attrezzature animano la cabina aperta dall'essenziale struttura aerea, sostenuta da profili di rigore geometrico in alluminio verniciato bianco, nero, cuvée, oppure rivestiti in hemlock cenere, mongoi o eucalipto.

Strict proportions are maintained between horizontal and vertical planes. A commitment to technical details epitomizes the sophistication of the Storage walk-in closet. Rich materials add visual interest to the simple structure of the walk-in closet. Coordinated vertical uprights are available in black, white or cuvée lacquer, cenere hemlock, mongoi, and eucalyptus finishes.

Storage - Cabina Armadio / Walk-in closet

Pivot sono ampie quinte mobili che, ruotando attorno ad un cardine, fungono ora da porta, ora da parete divisoria, ora da elemento di chiusura di una libreria piuttosto che di una cabina armadio. Elementi di arredo dalle molteplici funzionalità, assumono ruoli variabili per assecondare le mutevoli esigenze delle persone che abitano gli spazi.

Pivot are large mobile panels which, by rotating around a hinge, can be used now as doors, now as partition walls, now as closing units of a bookcase or of a cabinet. Furnishing elements with many functions, differently used, complying with the different requirements of the people who live there.

Le porte Shift sono realizzate su misura e disponibili nelle essenze Porro e in laccato opaco: partizioni architettoniche che scivola su un binario a terra calpestabile che non richiede opere murarie.

Shift doors are customized architectural sliding doors available in all the woods or matt lacquer finishes of Porro collection.

The integrated rails on the floor and ceiling require no structural reinforcement.

Passpartout tra la zona notte e il living, Boutique Mast è il sistema Porro dalla leggerezza nautica e dalla linearità grafica, che consente massima libertà espressiva per composizioni pavimento-soffitto o a parete. Ispirato agli alberi di una barca, Boutique Mast è caratterizzato da montanti metallici a sezione circolare su cui è possibile applicare grandi mensole a sbalzo ad "ala di aliante": una nuova concezione di cabina armadio o contenitore per la zona giorno con cui creare composizioni aeree di grande impatto visivo, soluzioni su misura completamente personalizzabili. Tra la sequenza verticale di elementi in metallo e quella orizzontale degli elementi in legno in aggetto è infatti possibile inserire a piacere libere composizioni di contenitori a giorno o moduli attrezzati, preziosamente rifiniti con taglio a 45°. Finiture: mensole nei legni della collezione, oppure in laccato opaco o laccato lucido nei colori di campionario; moduli (fino a L.1000 mm) nei legni della collezione oppure in laccato opaco o laccato lucido nei colori di campionario, HDS, interno HDS / esterno laccato opaco o laccato lucido nei colori di campionario; montante e aste appendiabiti in metallo verniciato iron o ottone brunito; specchiera in melaminico rovere carbonio.

The link between the bedroom and the living area, Boutique Mast featuring a nautical lightness but a graphical linearity as well, providing for the best and highest expression freedom for floor-ceiling or wall composition. Boutique Mast exhibits circular metal uprights where to fit cantilevered glider-wing shelves: a new design for the walk-in closet or a unit for the living area, creating aerial strongly visual and customised tailored-made solutions. Between the vertical sequence of thin metal units and the horizontal cantilevered wood units, it is in fact possible to freely fit hanging open or equipped modules, precious refined with a 45° corner jointing. Finishings: shelves in the woods or in matt or glossy lacquered colours of the collection; elements (up to L.1000 mm) in the woods or in matt or glossy lacquered colours of the collection, HDS, HDS inside/matt or glossy lacquered colours of the collection outside; upright and clothes rod in iron or burnished brass varnished metal; mirror in carbone oak melamine.

Finiture: struttura nei legni della collezione o laccato opaco o laccato lucido nei colori di campionario; inserti in cuoio nei colori della collezione; cassetti nei legni della collezione, laccato opaco o laccato lucido nei colori di campionario o in cristallo trasparente; piano di copertura nei legni o nei marmi della collezione, oppure laccato opaco o laccato lucido nei colori di campionario.

Finishings: structure in the woods or in matt or glossy lacquered colours of the collection; insert in saddle leather in the colours of the collection; drawers in the woods or in matt or glossy lacquered colours of the collection, or in transparent glass; cover panel in the woods or marbles of the collection, matt or glossy lacquered colours of the collection.

Con ben tre diverse concezioni di struttura dell'armadio, Storage è il primo sistema modulare che permette la continuità dello spazio in tutto l'armadio. L'innovazione nasce dalla nuova concezione dell'elemento portante della struttura: il fianco. Da sempre visto e concepito come separatore di parti nell'armadio, con Storage il fianco non è più una barriera, ma diviene l'elemento che permette la continuità aerea all'interno dell'armadio, pur risolvendo brillantemente la sua funzione di elemento portante della struttura e di supporto agli elementi orizzontali. All'interno dell'armadio il concetto di spazio acquista un nuovo valore. Grazie alle tre diverse tipologie di struttura ora è possibile creare spazi aperti o spazi chiusi perfettamente combinabili e integrabili fra loro. Con Storage è possibile realizzare molteplici soluzioni tipologiche: armadi in linea, ad angolo, zone cabina con e senza ante che risolvono le diverse esigenze della progettazione. Lo spazio è libero ma anche organizzato: l'ampia modularistica, i diversi sistemi d'apertura (battente, scorrevole e complanare) combinabili su ogni tipologia di struttura e le diverse attrezzature interne, rendono Storage un sistema completo oltre che innovativo, garantendo una progettazione versatile abbinata ad un'immagine uniforme di tutto il sistema.

Finiture: struttura in HDS bianco o nei melaminici della collezione; interni in HDS bianco, nei melaminici della collezione o in laccato opaco nei colori di campionario; ripiani disponibili in tutte le finiture della struttura o in ecopelle; schienali disponibili in tutte le finiture della struttura, in tessuto e in ecopelle; ante in HDS bianco, in tutti i melaminici, nei legni della collezione, laccato opaco o laccato lucido nei colori di campionario, specchio, cristallo trasparente, smoke, reflex, aluglass, in cristallo retro verniciato nei colori di campionario, in cristallo millimetrato grigio e smoke, in cuoio o ecopelle nei colori di campionario.

With its three different frame layouts, Storage is the first modular system that provides for continuity of space throughout the wardrobe. The innovation derives from a new concept for the element that bears the entire structure: the side panel. Traditionally considered and designed as a divider to separate different parts of a wardrobe, with Storage it is no longer a barrier, but rather the element that allows for spacial continuity inside, while brilliantly fulfilling its function as a bearing element for the structure and as a support for horizontal items. Within the wardrobe, the concept of space acquires a new value. Thanks to the three different frame layouts, it is now possible to design open or closed spaces that can be perfectly mixed and matched together. Storage allows for different layout solutions: inline wardrobes, corner wardrobes, walk-in areas with or without doors for the most varied design needs. Space is free but also well-organized: the wide range of modules, the different opening systems (hinged, sliding and coplanar doors) that can be combined in every type of structure, as well as the various internal fittings make Storage a complete but also innovative system, thus ensuring design versatility and consistency throughout the whole system.

Finishes: structure in white HDS or in the melamine finishes of the collection; interiors in white HDS, in the melamine finishes of the collection or matt lacquered in the colours of the collection; shelves available in all the structure finishes or in eco-leather; back panels available in all the structure finishes, textile and eco-leather; doors in white HDS, in all the melamine finishes, in the collection woods, matt or glossy lacquered in the colours of the collection, mirror, clear glass, smoke glass, reflex glass, aluglass, back-painted glass in the selected colours, millimetrato grigio or millimetrato smoke glass, saddle leather or eco-leather in the selected colours.
