

Cargo

design Christophe Pillet 2025

IT/ Il divano modulare Cargo, firmato da Christophe Pillet, esprime la volontà di proporre libere composizioni di volumi morbidi di larghezze diverse, con e senza braccioli.

Caratterizzato da un generoso modulo di seduta di dimensioni L. 1330 x P. 1010 mm, Cargo è stato progettato per ottimizzare l'utilizzo del tessuto in altezza 1400 mm e si distingue per un'estrema pulizia formale, resa possibile dalla presenza di pochissime cuciture, concentrate esclusivamente sui fianchi e assenti sui volumi frontali.

Un'ulteriore peculiarità di Cargo è l'integrazione del cuscino di seduta e dello schienale in un unico elemento. Questa soluzione conferisce a ogni modulo una propria compiutezza formale, enfatizzando la continuità del volume e semplificando la progettazione del sistema. L'ampia dimensione dei moduli rappresenta inoltre un importante valore progettuale: consente di realizzare composizioni di grandi dimensioni con un numero ridotto di elementi,

per un'immagine continua, essenziale ed equilibrata. I moduli sono disponibili anche in varianti bifacciali, che ampliano ulteriormente le possibilità di configurazione. La collezione comprende moduli terminali in due larghezze, moduli terminali a isola (senza schienale), moduli con schienale, moduli angolari, pouf in diverse larghezze, oltre a chaise longue con profondità di 1460 mm, studiate per offrire un comfort ancora più avvolgente.

La gamma si completa con due cuscini schienale, consigliati per un miglior comfort di seduta su moduli con profondità maggiore di 960 mm, il più grande da 1000 x 450 mm e il più piccolo da 700 x 450 mm. Sono disponibili anche due cuscini aggiuntivi in due dimensioni: 600 x 450 mm e 550 x 400 mm.

Cargo è completamente sfoderabile.

EN/ Cargo modular sofa, designed by Christophe Pillet, embodies the concept of creating freely configurable arrangements of soft volumes in different widths, with or without armrests.

Featuring a generous seating module measuring W. 1330 × D. 1010 mm, Cargo has been designed to optimize the use of 1400 mm-wide fabric and stands out for its exceptional visual purity, achieved through a minimal number of seams, placed exclusively along the sides and absent from the front-facing surfaces.

A distinctive feature of Cargo is the integration of the seat cushion and backrest into a single element. This solution gives each module a complete and self-contained identity, enhancing the continuity of its volumes while simplifying the design of the overall system. The generous

dimensions of the modules are another key design advantage, making it possible to create large-scale configurations with a limited number of elements, resulting in a continuous, refined and well-balanced aesthetic. Modules are also available in double-sided versions, further expanding the range of possible configurations.

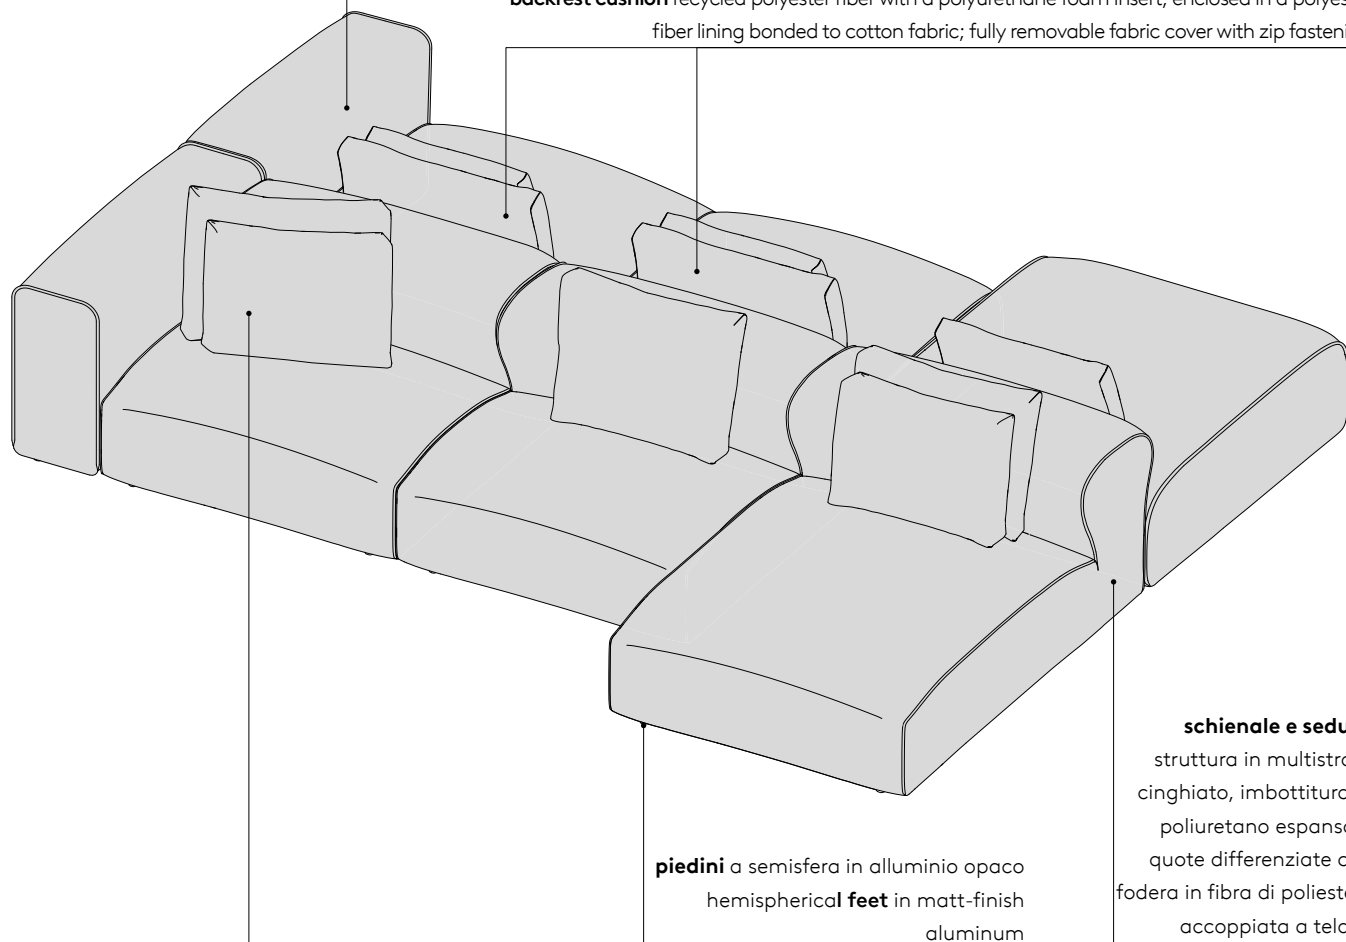

The collection includes end modules in two widths, island end modules (without backrest), backrest modules, corner modules, poufs in different widths, and chaise longues with a depth of 1460 mm, designed to provide an even more enveloping level of comfort. The range is completed by cushions available in three sizes: the largest (1000 × 450 mm), ideal as a backrest for the double-sided versions, a medium size (600 × 450 mm), and a smaller version (550 × 400 mm). Cargo features fully removable covers.

bracciolo struttura in multistrato, imbottitura in poliuretano espanso a quote differenziate con fodera in fibra di poliestere accoppiata a tela di cotone, rivestimento in tessuto interamente sfoderabile tramite velcro
armrest plywood frame, multi-density polyurethane foam padding with a polyester fiber lining bonded to cotton fabric, fully removable fabric upholstery secured with velcro

cuscinio schienale in fibra di poliestere riciclata con inserto in poliuretano espanso e fodera in fibra di poliestere accoppiata a tela di cotone, rivestito in tessuto interamente sfoderabile tramite cerniere
backrest cushion recycled polyester fiber with a polyurethane foam insert, enclosed in a polyester fiber lining bonded to cotton fabric; fully removable fabric cover with zip fastening

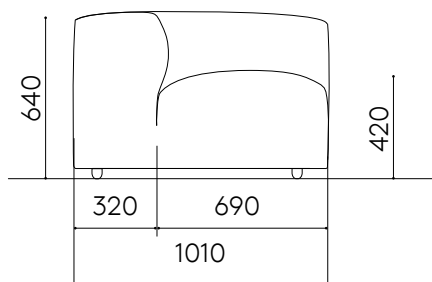

cuscinio opzionale in fibra di poliestere riciclata e fodera in fibra di poliestere accoppiata a tela di cotone, rivestito in tessuto interamente sfoderabile tramite cerniere
optional cushion recycled polyester fiber filling, enclosed in a polyester fiber lining bonded to cotton fabric; fully removable fabric cover with zip closure

Modulo standard con cuscino opzionale
Standard module with optional cushion

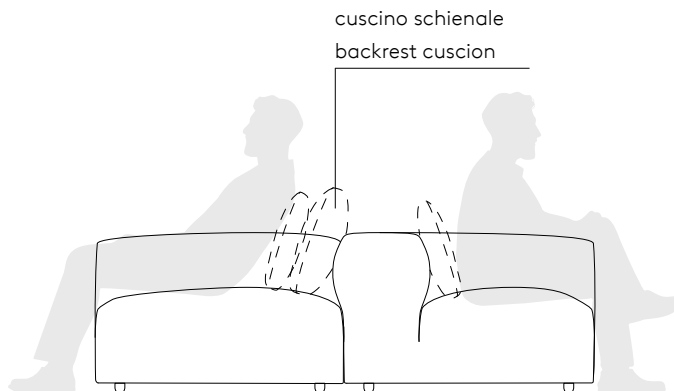

Sono disponibili cuscini opzionali per arricchire e personalizzare la composizione.

Chaise longue con cuscino opzionale
Chaise longue with optional cushion

Optional cushions are available to enrich and personalize the composition.

Modulo bifacciale con cuscino schienale e cuscini opzionali
Double-side module with backrest and optional cushions

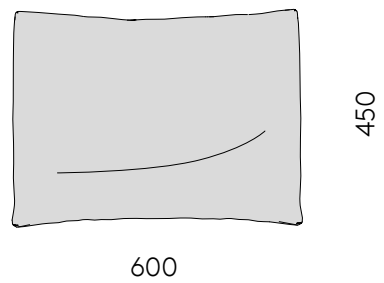

Nella configurazione bifacciale, per i moduli con profondità maggiore di 690 mm, è consigliato utilizzare un cuscino schienale per ottenere un comfort di seduta ottimale, secondo le misure proposte a listino.

In double-sided configurations, for modules with a depth greater than 690 mm, the use of a backrest cushion is recommended to ensure optimal seating comfort, according to the sizes available in the price list.

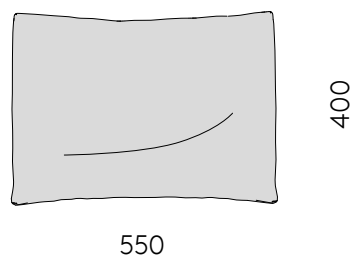

Cuscini \ Cushions

Cuscinatura Cushioning

Cuscino grande Large cushion

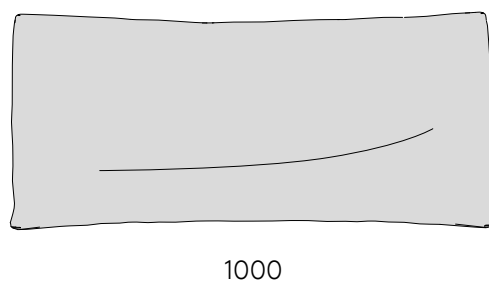

Cuscino piccolo Small cushion

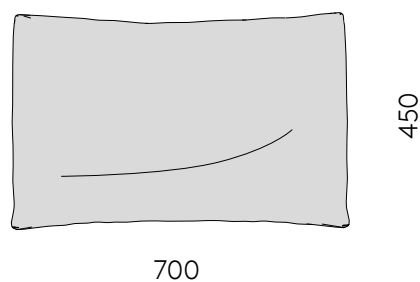

Cuscinatura per configurazione bifacciale Cushioning for double-side configuration

Cuscino schienale grande Large backrest cushion

Cuscino schienale piccolo Small backrest cushion

Rivestimenti disponibili \ Available upholstery

Il divano Cargo è proposto con un'ampia e ricercata selezione di rivestimenti, che comprende tessuti dalle diverse cromie, trame, texture e composizioni, articolati in cinque categorie di prezzo.

Per una visione completa di tutte le opzioni disponibili per il divano Cargo e per le certificazioni CAL e UK, si rimanda alla scheda di fattibilità nella sezione Rivestimenti del presente listino.

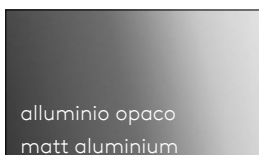

In caso di rivestimento in tessuto cliente è necessario fornire un campione del tessuto scelto a Porro, in modo tale da poterne verificare la fattibilità prima di procedere con l'ordine.

The Cargo sofa is offered with an extensive and carefully curated selection of upholstery options, including fabrics in a wide range of colours, weaves, textures and compositions, organised into five price categories.

For a complete overview of all the upholstery options available for the Cargo sofa, as well as for CAL and UK certifications, please refer to the feasibility sheet in the Upholstery section of this price list.

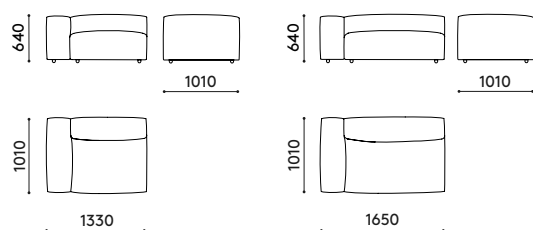

In the case of customer's own fabric, a fabric sample must be submitted to Porro in order to verify feasibility prior to order confirmation.
