

# GALLERY LOW CUPBOARD

design **Gabriele e  
Oscar Buratti**  
2017

Gallery Low Cupboard è una madia caratterizzata da un volume architettonico pulito e razionale.

La nuova versione con anta singola a scorrimento verticale amplia la gamma di Gallery, presentata lo scorso anno.

Anche in questa accezione l'anta scorrevole scopre un interno ricco e funzionale, adatto a riporre stoviglie e a fungere come mobile bar.

Il fascino di questa madia risiede anche nel peculiare effetto creato dal fondale a specchio che regala luminosità e preziosità agli interni in laccato opaco, in uno dei colori della collezione.

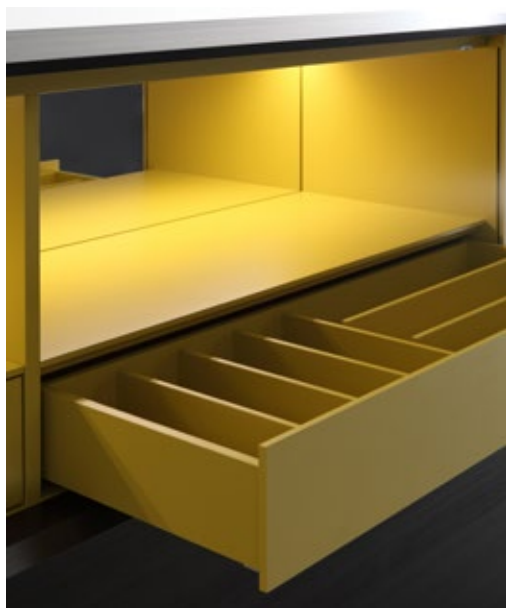

Gallery Low Cupboard is a sideboard with a clean and rational design.

The new version with a single upward sliding door expand the proposal of Gallery, presented last year.

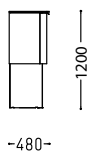

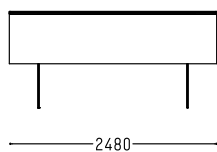

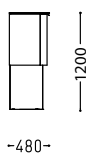

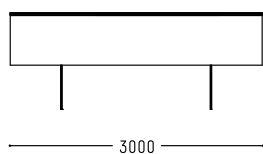

Even in this version the upward sliding door reveal a rich and functional interior space, ideal for storing valuable tableware and to be used as a liquor cabinet.

The appeal of this sideboard is also the peculiar effect created by the mirror back panel that makes the internal matt lacquered shelves, available in one of the colors of the collection, brighter and more precious.

# GALLERY LOW CUPBOARD
