

design **Gabriele e
Oscar Buratti**
2017

Gabriele ed Oscar Buratti firmano per Porro la famiglia di contenitori Hub. Hub viene proposto in composizioni ideali per rispondere funzionalmente alle esigenze di contenimento della zona notte, del dressing room e degli ambienti giorno.

Si compone di eleganti strutture in legno che si integrano con i diversi materiali dei piani di copertura, con frontali realizzati a folding in legno o cristallo serigrafato e con curati elementi in cuoio o marmo.

A partire dall'elemento base del cassetto, Hub si articola in una ricca gamma di tipologie di contenitori che si sviluppano dal comodino fino a declinarsi in funzionali comò ed eleganti cassettiere ad isola per la zona armadi, disponibili in molteplici varianti.

The Hub system of containers is designed by Gabriele and Oscar Buratti. Hub comes in a range of ideal compositions to fulfil, from a functional perspective, the storage needs of a bedroom, a dressing room and of living spaces.

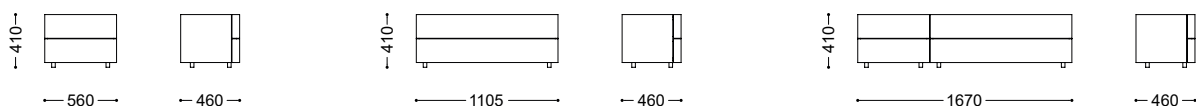

It features elegant wooden structures matching different materials on the tops, whereas the front panels are made either of wood with a folding technique or of silk-screened glass with fine leather or marble details.

Starting from the basic element, the drawer, Hub develops in a wide system of container types ranging from nightstands to functional cabinets and fine chests of drawers to be placed in the middle of the cupboard area – available in multiple versions.
