

IPE

design **Piero Lissoni**
2014

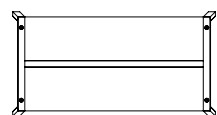

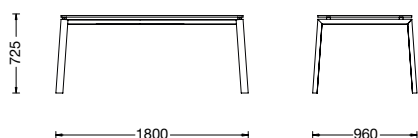

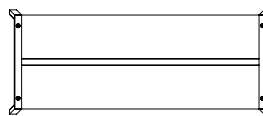

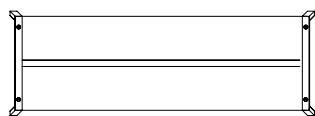

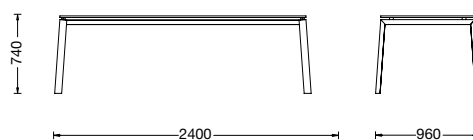

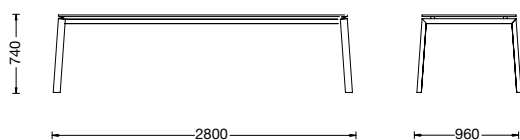

Funzionale, tecnologico, multiuso, Ipe è il nuovo tavolo dall'estetica raw, con piano in cristallo trasparente, retroverniciato o legno, e gamba ad U in ferro verniciato nero. Silhouette austera e industriale, si concede un vezzo: l'interno della gamba è color ruggine, un ingrediente segreto, pensato per stupire.

Functional, technological, multi-purpose, Ipe is the new esthetically-raw table, with transparent glass, back painted glass or wooden top and black varnished iron U-shaped legs. An austere and industrial silhouette with a quirk: the inside of the legs is in rust color, a secret ingredient, designed to impress.
