

SYSTEM

design **Piero Lissoni + CRS**
1995

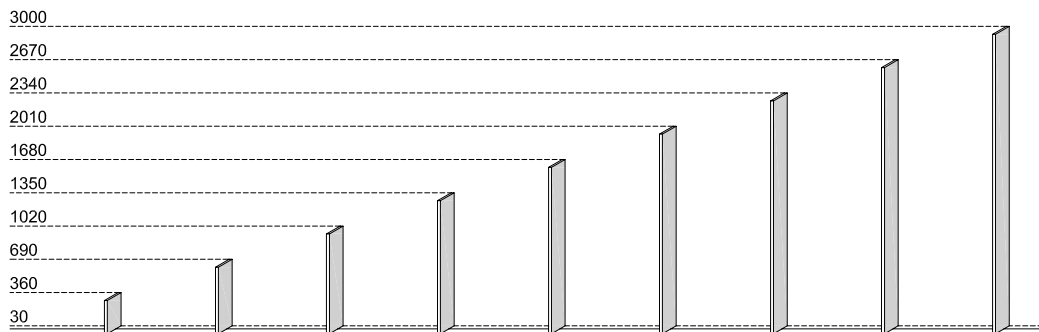

Versatile, intelligente, flessibile: System entra nella casa e nell'ufficio assecondando la personalità di chi li abita, le sue inclinazioni e il suo stile di vita. Per la varietà e la qualità delle finiture, rappresenta la soluzione ideale nel disegno di progetti su misura, a cui sa adattarsi con intelligenza per creare gli ambienti più diversi: classici, sofisticati, informali o elegantemente tradizionali. Polivalente ed eclettico per il numero di funzioni che assolve, può essere destinato a libreria, contenitore di media tecnologia, area studio o anche come elemento per suddividere ambienti e creare superfici attrezzate. Ispirato al rigore e alla ricchezza progettuale del migliore design contemporaneo, System costituisce una presenza forte ed equilibrata, capace di definire in modo determinante lo spazio, migliorandone l'efficienza e, insieme, la qualità estetica.

Versatile, intelligent, flexible: System enters the home and the office to meet the needs of personalities, inclinations and lifestyles of those who live there. With the wide variety and superior quality of its finishes, System is the ideal solution to plan custom furnishing projects, since it can be intelligently adapted to create highly diverse settings: classic, sophisticated, informal, or elegantly traditional. Multifunctional and eclectic due to the many functions it provides, System can be used as a bookcase, a module for electronic media, an office area, or even as an element to divide rooms and create equipped walls. Inspired by the precision and flexible project features of fine contemporary design, System has a strong and balanced personality defining room areas in a definitive way, while improving their efficiency and appearance.

porro

Schema altezze Scheme heights

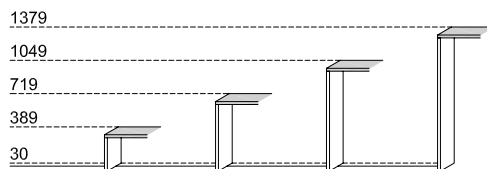

N.B. Il sistema prevede 9 altezze modulari ogni 330 mm.
Ogni altezza è disponibile nelle 3 profondità: 346 - 474 - 602 mm.

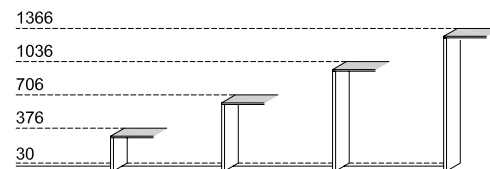

Note The system foresees 9 sectional heights each 330 mm
Every height is available in 3 depths: 346 - 474 - 602 mm

Schema altezze strutture basse con piano di copertura Scheme heights low frames with cover panel

Piano di copertura spesso re 29
Cover panel thickness 29

Piano di copertura spesso re 16
Cover panel thickness 16

N.B. I piani di copertura delle strutture basse possono avere uno spessore di mm 29 oppure di mm 16.

Note The cover panels of the low frames are available with a thickness of 29 mm or 16 mm.

Schema altezze strutture a sbalzo con piano di copertura Scheme heights projecting frames with cover panel

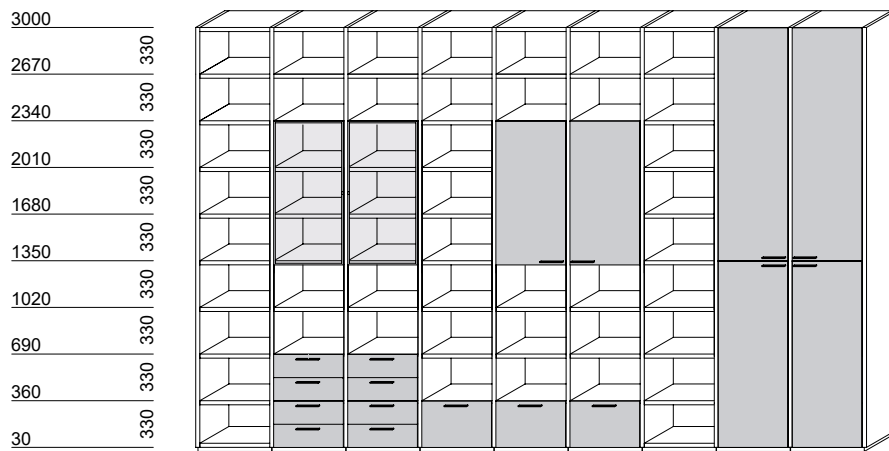

N.B. Le strutture a sbalzo si creano utilizzando fianchi H.330 mm e 660 mm e fianchi superiori per sbalzo. Strutture a sbalzo possono essere create anche senza piano di copertura continuo.

Note Projecting frames are made using sides of H.330 mm and H.660 mm and upper sides for projecting elements. Projecting frames can also be created without a continuous cover panel
