

STORAGE

design **Piero Lissoni + CRS**

Programma completo, progettato all'insegna della razionalità e della funzionalità, Storage è in grado di contenere e di mostrare gli oggetti riposti, trasformandosi con naturalezza da armadio a cabina. Capace di annullare la sua presenza in ambienti dalle dimensioni contenute, è al contempo ideale per definire spazi ampi, creando inedite scenografie dell'abitare. Le discrete ed eleganti ante, a battente, complanari, scorrevoli, celano organizzati interni in ciliegio white, hemlock "cenere", black sugi, mongoi, eucalipto, HDS e laccato opaco colori. Le ricche attrezzature, in tutte le finiture proposte a listino, animano la cabina aperta, dall'essenziale struttura aerea, sostenuta da profili di rigore geometrico in alluminio verniciato bianco o nero oppure rivestiti in hemlock "cenere", mongoi o eucalipto.

Storage is a complete programme designed to be functional and practical. It is able to hold and show different items by changing from cupboard to walk-in closet. It can efface itself in small rooms and in the meantime it can determine large rooms by creating original living sets. The fair and elegant hinged, folding, pullout sliding and sliding doors hide ciliegio white, "cenere" hemlock, black sugi, mongoi, eucalyptus, HDS and matt colours lacquered equipped insides. Rich outfitting, in all finishings of our collection, liven up open walk-in closet with its basic frame held up by white or black varnished or hemlock "cenere", mongoi or eucalyptus drafts.
